

RESPONSE

- Main Console has a back lit Emergency Button. The unit connects to an existing telephone line and no installation call is necessary. System includes Back-up Battery, AC Transformer and Phone Cord.

- Emergency Pendant Button: You have a choice of either a wristband button which can be converted to a necklace, or our attractive necklace button.

Wristband/Necklace Convertible

Necklace

- Our customers tell us that they prefer the necklace and we agree for several reasons:
 - A necklace can be activated with either hand, unlike a wrist band.
 - The necklace can be worn normally or tucked subtly under a sweater or shirt.
 - Attractive modern design.

Optional Accessories

The Alert Sentry key lockbox provides you with peace of mind, knowing that you control who has access to your home. Now you can keep your door locked 24 hours a day, while your family, friends and emergency personnel have access to your home.

There are two styles of key lockbox available. The first hangs on the door knob or handle and requires no installation. The second would be surface mounted near the door.

PERSONAL EMERGENCY RESPONSE SYSTEM

SAFETY AT HOME WITH THE PUSH OF A BUTTON

"Being worried about my mother living alone at home, I decided to give her the Alert Sentry System. Mom wasn't very receptive about the idea, but agreed to take the system to make me feel better.

A thoughtful gift for loved ones

Easy to use

Fast, reliable response

It wasn't even a week later when she called to say 'thank you' and to let me know she actually felt safer and more independent.

I feel much better too, knowing Mom can get help if she needs it! Thank you."

*J. Kincaid
Appleton, Wisconsin*

ALERT SENTRY™
PERSONAL EMERGENCY RESPONSE SYSTEM

EMERGENCY

The Alert Sentry System:

Easy As 1, 2, 3

1 An Emergency Situation Occurs

Push the One-Button Control on the Alert Sentry portable pendant or on the Main Console Unit.

2 Talk with a Trained Operator

One of our Call Center Operators will speak to you through the Alert Sentry System. The Operator confirms your immediate needs and takes action.

3 Help is on the Way!

The Call Center Operator immediately relays the emergency response based on the customer's direction or on a pre-arranged plan. Depending on the need, the rapid response could include an emergency call to the local fire or police station, or possibly to a family member or friend. The Operator will then provide any specially needed details concerning the customer or their residence to the responder.

ALERT SENTRY™
PERSONAL EMERGENCY RESPONSE SYSTEM

PERSONAL EMERGENCY RESPONSE SYSTEM

Because You Care

The Alert Sentry Personal Emergency Response System is the gift of safety. You're reading this information because either you or someone you know and care about needs the security and peace of mind of the Alert Sentry System. Please don't wait until it's too late. Speak with our Representatives and they will explain the features and benefits of the Alert Sentry System, including its simple use and low cost.

"My wife, son and I moved from Long Island to Pennsylvania and wanted my mother who is 72 to move with us. She wanted to stay in her home, which meant living independently. The Alert Sentry System was the answer that gave both us and her peace of mind knowing she'd be safe even if we weren't next door!"

R. Samson, Walnutport, PA

Safer at Home

Parents, grandparents and others who cherish their independence at home find the Alert Sentry System provides year-round, 24 hour safety. You and your loved ones will be more confident knowing that help is just the press of a button away.

Technology and Personal Care

The Alert Sentry System combines high technology with simple design to work at the push of a button. The One-Button Control immediately reaches our Call Center of caring, trained professionals. Our fully-staffed Call Center operates 24 hours a day, 365 days a year.

Peace of Mind

We all want our independence at home! As we age, we don't always ask or admit that we sometimes need help, not wanting to burden those we love. For their safety and everyone's reassurance, the Alert Sentry System is a resource that you can trust, knowing it's always available. The Alert Sentry System is also useful to provide safety for college students, baby sitters, children, and others.

Alert Sentry – Why We're #1

Developed jointly by telecommunications and healthcare professionals, the Alert Sentry System consists of state of the art equipment combined with caring highly trained Call Center personnel to provide you with the safety and peace of mind you deserve at home.

- ✓ **The Alert Sentry System is Secure and Approved to UL Standards.**
This means the Alert Sentry System has been independently tested and conforms to Underwriters Laboratories standard 1637 for use in Home Health Care signaling. Additionally, all our Call Center personnel are not only highly trained, but have had thorough background checks and received government clearance of "SECRET". All systems have full back-up complete with generators, all to comply with UL standards.
- ✓ **E-mail Notification.**
Should there be an activation of the Alert Sentry System, we will send a follow-up e-mail notification to all responders.
- ✓ **Weekly System Test.**
The Alert Sentry System automatically tests itself to the Call Center weekly.
- ✓ **High and Low Temperature Monitoring.**
The Alert Sentry System monitors your home for both high (105°F) and low (35°F) temperatures to protect you and your property.
- ✓ **Main Console has 22 Hours of Battery Back-up.**
To keep your system up and running in the event of a power failure.
- ✓ **Supervised Pendant Battery.**
Battery life of your pendant is 4-6 years but, should it become low, the Call Center will be notified. Your replacement is covered by our warranty.
- ✓ **Speaker Phone Feature.**
No need to run for the phone, simply press your button while the phone is ringing and you're on hands-free speaker phone.
- ✓ **Simple Set-up.**
The Alert Sentry System simply connects to your existing phone line, no cable or internet connection is needed. No installation call is necessary.
- ✓ **No Long Term Contracts.**
You pay for the monitoring only as long as you need it.
- ✓ **Life Time Limited Warranty**
As long as your system is monitored by Alert Sentry, you're covered.
